10/2020 to 12/2020

#### IT Intern

Work with Windows AD, Windows Server 2019, and Google G-Suite administration for School Enterprise.

Troubleshoot issues with the network, and provide technical assistance.

### Northern Arizona University

08/2016 to 12/2017

#### FYLI Peer Teacher Assistant

Designed Python and Java projects; Graded assignments and exams. Held SI Sessions for students and lectured in absence of Professor.

## Education

### Northern Arizona University

08/2013 to 12/2017

Bachelor of Science, Computer Science

## Personal Projects

### BrisketBot

A discord bot created with Discordjs and hosted on Heroku.

Pulls data from an external website to display for users on discord.

### Possum Pals

Built an imageboard with a PERN stack and have it hosted on Heroku.

Utilized Cloud Object Storage (Amazon S3) for image hosting.

### danielohn.me

My personal website is made with GatsbyJS, React, and CSS.

### Flask Project

Built using Flask, Jinja, and CSS, with SQLite backend.

Hosted on PythonAnywhere with AWS S3 Image Hosting.
